Hair Restoration Cost Worksheet

Use this worksheet to estimate and compare the real, all-in cost of each hair-restoration option for your situation — before you talk to anyone.

How to use it

Write down the option you're considering, then fill in each line as you research or ask a provider. Compare the totals side by side. Remember these are estimates, not quotes — always confirm in writing.

Typical price ranges to start from

Use these only as a starting point. Your real number depends on your pattern, the number of grafts or sessions, and your area.

Questions that change the price

- How many grafts or sessions are recommended for my goal?
- Is the consultation fee credited toward treatment?
- What is included — and what costs extra (medication, follow-ups)?
- Is financing offered, and what is the true total with interest?

Compare, don't rush

Get more than one opinion. The lowest phone quote is not always the real bill. A provider who sets honest expectations is worth more than one who promises a guaranteed result — because no honest provider can.

Option	Typical range	Your estimate
FUE transplant	\$4,000–\$15,000	\$ _____
FUT transplant	\$4,000–\$10,000	\$ _____
PRP (course of 3–4)	\$1,200–\$3,500	\$ _____
Medication (monthly)	\$20–\$120	\$ _____
Consultation	\$0–\$250	\$ _____
